- Strong, lightweight and Safe
- Pneumatic whisper quiet ride

Just send off the accompanying form, eMail, SMS txt message or call 0416 293 686 now and we'll aim to determine your quote within 45 minutes, and deliver your brand new OCEAN CRAFT Australia and worldwide

If you're already familiar with the capabilities of the proven inflatable style design of a rubber dinghy you'll already know a lot about the performance, safety and reliability of today's ALL ALUMINIUM

PLATE ALLOY OCEAN CRAFT

Which means that your OCEAN CRAFT is guaranteed never to sink lifetime warranty - isn't that what you call reliability!? And did we say super stable and fast!? Experts are using strong language to describe the Ocean Craft as the safest boat ever built - because as well as being phenomenally buoyant lightweight and strong—You and your OCEAN CRAFT plane along on a cushion of air meaning unsurpassed comfort in ride and fuel economy using OCEAN CRAFT's POSI LIFT hull

HOW!? OCEAN CRAFT are the only aluminium

plate alloy boats with pneumatic properties which means noise insulation and shock absorption and whisper quiet ride come as standard

Your OCEAN CRAFT will overtake any other boat with the same sized engine isn't that why you want to invest in a bigger outboard in the first place!?

All OCEAN CRAFT are certifiable in survey as a Work Boat for Charter or for Hire and you can order your OCEAN CRAFT CARTOPPA ultra lightweight airtight buoyancy section or BEAMY 2.4 metre width

All OCEAN CRAFT have watertight buoyancy sections that are pressurisable Airtight chambers which means that you can test the integrity of your OCEAN CRAFT safely and reliably any time extending the warranty virtually indefinitely

What the press says: "...a very special sort of boat a genuine macro deep vee cylinder boat with big water attitude, astonishing stability, ally toughness and performance in a 79kg package. It makes a great tender , it's a real survival platform...the ultimate roof topper or mothership fisherman" Darren Shiel, Fisherman & Boatowner, December 2005

OCEAN CRAFT 6000 Caloundra Class Extreme Reef Fisher

Lighter also means more buoyancy and less weight to trailer and to get up on the plane To make things easier still your OCEAN CRAFT can be supplied ULTRA LIGHTWEIGHT CARTOPPA narrower beam but with the same HD diameter Heavy Duty

aluminium tubes with airtight watertight buoyancy chambers only possible using the OCEAN CRAFT Patented Sponson Valve — which means roof topping or manhandling up the beach just became a whole lot easier.

What if I use other Outboard Engines with my OCEAN CRAFT?

To anyone who uses the OCEAN CRAFT Adventure Safety Boat knows the extra buoyancy stability and safety is indispensable, and not just for the extra performance and lightness it offers. That's because the OCEAN CRAFT is designed to be used with any make of two stroke or four stroke or EFI outboard. And it automatically adds fuel economy and performance without adjustment to your engine

How do I order? All these advantages could justify a six-figure price-tag for OCEAN CRAFT but until the end of August OCEAN CRAFT 4300 Sea King 4.3 metre DIVER TOHATSU 30HP OCEAN CRAFT Custom easy launch and load trailer Package Deal - including delivery and insurance* please enquire

**Dec
31**
